

Fridy being 4th

Dear Anne Emma has  
just called at 9 O'Clock &  
handed your note also read  
your letter to Debra. If  
Henry comes on Sunday I  
will average matters with him  
if I can. The why I did  
not when I called I can  
explain hereafter.

I got Anne Henry night  
& found Phoe much better  
Thistle about as I left  
her. I fear her head is  
gradually growing worse, but  
the medicine I took of Dr. Wild  
may keep it back again as  
I believe it has done.  
I have been more ill the  
last two days than I have  
been before this 6 months

The headache - have took the  
Stemnum of Mrs of Dr Gley  
Weld told me how to do it.  
I have took it twice & my  
cough is better, have ~~coughed~~  
coughed none to-day.

I shall be glad to see you  
when you come, but shall  
not look for you.

Mr Sperr called this af-  
ternoon, Mrs Phelps & Aunt  
He staid to tea - I mean  
Laurie. The weather has  
been such I have not been  
out since I returned.

not even a sewing meeting  
has been held, therefore of  
course I have no news.
